

APPLIED RESEARCH LABORATORIES

Expert & Expedient Product Safety Testing For Over 70 Years

When you partner with ARL, you can be confident that your product will have our immediate attention, that our testing will be performed in full compliance with the relevant standards, and that our certification label will command nationwide respect.

Our fully-equipped facility located in South Florida provides independent, high-quality testing and certification services for clients across the world.

- Listing & Labeling
- Performance/Comparison Testing
- Corrosion Analysis
- ENERGY STAR® Performance Testing
- Field Evaluations

PRODUCT TESTING EXPERTS

ARL is a full service product testing laboratory based in Miami, Florida. We offer a wide range of services designed to facilitate market access for your products, satisfy local/regional building codes, and provide independent test support for product design optimization.

- **Nationally Recognized Testing Laboratory (NRTL)**
- Accredited Certification Body (ISO 17065)
- Accredited Testing Laboratory (ISO 17025)

LISTING & LABELING

A certification listing and the associated product label are essential components to bring your products to market.

With ARL's partnership your products will be:

- Certified to national and other recognized standards
- Tested and evaluated in-house
- NRTL Certified
- Listed in ARL's online certification database
- Assured of ongoing compliance

FIELD EVALUATIONS

Quick response for on-site testing is available offering you cost effective solutions for:

- Unlabeled or modified electrical equipment
- Nationally recognized field labeling
- National safety standards
- Compliance with AHJ requirements

CORROSION ANALYSIS

With State-of-the-art environmental chambers, ARL provides testing and analysis for:

- Ferrous & non-ferrous metals
- Inorganic and organic coatings
- Accelerated cyclic conditions
- Salt fog/spray conditions
- High temperature/humidity effects

LABORATORY SCOPE

- National Standards (ANSI)
- Industry standards (AHRI)
- Regulatory (ENERGY STAR®)
- Customer Requirements
- Custom Protocols

ENERGY STAR® PERFORMANCE TESTING

ARL is recognized by the EPA as a testing laboratory for the following products:

- Light Commercial/Residential HVAC
- Air-Source Heat Pump Equipment & Central Air Conditioners
- Geothermal Heat Pumps
- Residential Water Heaters
- Water Coolers

PERFORMANCE/COMPARISON TESTING

We are industry experts in:

- HVAC Systems & Units
- Electrical Heating & Cooling Equipment
- Pool Heaters
- Water Heaters
- Electrical Equipment & Tools
- Mechanical Equipment
- Lighting
- Lightning Protection
